

# Opening Doors TO ALL ATLANTA HOMELESS

ReStart is a community center which was created to open doors to a path for the homeless. Our mission is to give the homeless, a hand up not just a hand out, to restart their lives and become a contributing member of their community.

**REAL** change takes place. Our clients become contributing members of their community. We believe once a person has a “home”, even if it’s a single occupancy residence, they will begin to take pride in that home and themselves.

## In 2017:

- We helped clients get off the street, directing them to appropriate agencies based on their personal needs
- Determined their needs through a strategic assessment
- Made an attempt to meet their short term needs through emergency shelter support and serving meals
- Served over 3,000 meals in 2017
- Once employed, we assisted in finding or, in the future, providing, permanent housing for clients

Our ReStart Ambassadors are individuals that work one on one with our clients each Saturday morning between 9:00 AM - 11:AM identifying which existing agency or organization can provide them the proper support.

Once the proper organization is identified we then provide our client a Marta card and a referral letter from ReStart to the appropriate agency.
